- Voice Mail
- Voice to E-mail
- Time Based Routing
- Call Transfer
- CDR
- WiFi
- Support Traditional Analog connectivity
- GSM Connectivity
- VoIP Connectivity

### **\*astTECS** Advantage

#### **TECHNOLOGY**

The most obvious technological advantage of **\*astTECS** IP PBX is that it is purely **ASTERISK**. Asterisk is an open source communication platform which provides all of the features you would expect from a proprietary PBX and more at much affordable cost.

Asterisk remains pretty awesome technology, and we believe it remains one of the best hopes for any sort of sensible integration between telecom and whatever other technology you might wish to connect your telecom to.

#### **FLEXIBILITY AND SCALABILITY**

It is flexible to adopt and integrate with your existing telecom infrastructure. With Asterisk,

no one is telling you how your phone system should work, or what technology you are limited to. If you want it, you can have it. Asterisk lovingly embraces the concept of standards compliance, while also enjoying the freedom to develop its own innovations

#### **FEATURES AND FUNCTIONALITIES**

**\*astTECS** IP PBX is packed with all the high end features that a proprietary PBX can offer you and much more than that they can dream off. With Asterisk as the platform you are limited to none. The standard compliance and open architecture allows **\*astTECS** IP PBX to offer what business requires.

#### **THIRD PARTY INTEGRATION**

As **\*astTECS** IP PBX is based on open standard it can integrate with any third party applications and product. You can choose from the line of products which is available in the market and you need not face any vendor lock in..!

#### **TECHNICAL SUPPORT**

Our Technical support team is trained professionals on all types of Asterisk applications, with troubleshooting experience ranging from basic dial plan construction to real-time configuration management. We believe in a Quality and efficiency driven services. We have 24/7 customer care support, striving to make the customers experience fruitful with us.
